TELCO AND DIGITAL FORUM 2018 EDITION

Sept. 27 At Groupe Les Echos-Le Parisien

PARIS, 04.10.2018, 10:51 Time

USPA NEWS - On September 27, 2018, was held a Forum @ Groupe Les Echos - Le Parisien Headquarters (Paris) regarding two Specific Fields : Digital Sector and New Technologies. With increasingly Demanding Customers, Strict Compliance Regulations and Complex Operational Concerns, Telecommunication Companies may be in more dire Need of the Digital Transformation than almost any other Enterprise. At the Center of this Transformation is Data. Hyper-Availability is the Key Factor in Optimizing Operations, Staying Compliant, Meeting the Demands and Remaining Competitive in a Fast-Evolving Market.

On September 27, 2018, was held a Forum @ Groupe Les Echos - Le Parisien Headquarters (Paris) regarding two Specific Fields : Digital Sector and New Technologies. With increasingly Demanding Customers, Strict Compliance Regulations and Complex Operational Concerns, Telecommunication Companies may be in more dire Need of the Digital Transformation than almost any other Enterprise. At the Center of this Transformation is Data. Hyper-Availability is the Key Factor in Optimizing Operations, Staying Compliant, Meeting the Demands and Remaining Competitive in a Fast-Evolving Market.

Questions rise more and more concerning :

- * Keys of Ensuring Intelligent Data Management
 - * How Telecom Companies are Dealing with Digital Changes and Data Growth
 - * How Major Telecom Players maintain Nonstop Connectivity
 - * Availability and Security Guidelines that Facilitate Digital Transformation
- (...)

Investment by the Telecommunications Industry in Technology and Interoperability has underpinned an Immense Shift in Information and Capital Flows through the Global Economy, while providing the Building Blocks for the Emergence of Entirely New Business Models across Industries.

It is clear that Digitization will be a Source of Transformational Change, but there are a Number of Challenges that need to be overcome. In many Cases, the Gains from Digitization have been Inequitable, with the Benefits not reaching those who need them most. At the Same Time, the Exponential Increase in Global Information flows has created New Risks for Data Privacy and Security. The Ever-Wider Availability of Technologies such as Mobile, Artificial Intelligence, Cloud, Analytics and Platforms is Dramatically Altering the Way we live, work and interact "" in what has been termed the Fourth Industrial Revolution. The Telecommunications (Telecom) Industry is playing a Critical Role in enabling this Digital Revolution unfolding around us.
